Subject: Re: Comment period extended to November 8 - Quendall Terminals Proposed Plans

This is great news, as the attendees to your Kathy's presentation at the KNA meeting on 10/29 will have the opportunity to respond using that process.

By the way, I don't anticipate that any of the people that commented at your 9/24 Open House will be attending on 10/29. Our audience is typically made up of citizens who like to be informed, some of whom may have a question or comment, but I would be surprised if any of them are well-enough versed on this subject to suggest any alternative to the EPA's preferred plan. I would expect that the questions would be more focused on traffic, noise, air pollution, etc.the kinds of things that might affect them directly.

Best regards,

Read [EPA's Tips for Effective Comments](#)

All comments are considered equally. EPA will place all comments and a summary of EPA's response to the comments in EPA's Administrative Record for the Quendall Terminals Superfund Site.

Documents are available for review:

Cleanup alternatives are described in detail in the Proposed Plans for Quendall Terminals. Our fact sheet summarizes our preferred alternatives. The proposed plans, fact sheet, supporting documents, and site information are available on EPA's Quendall Terminals Site Page: www.epa.gov/superfund/quendall-terminals
